DJ Crash

I've been to lots of parties and know when one sucks. Its when Crash isn't on the turntables. End of Story.

VALUE OF A DJ

What's your musical priority? Don't wait til the end to find the right DJ. Most of the time guests at events really don't pay too much attention to the details of the entertainer.

What is the value of a DJ? What do you want your DJ to do? Are you looking to re-create a nightclub atmosphere, or perhaps a refined, elegant lounge. The judgement of the DJ can make or break your party. Expectations need to be clearly defined and understood. Let us help you express your vision.

NOT All DJ's Are The Same

Two things that differentiates one DJ from another is style and uniqueness. Crash has ability to read a crowd and make adjustments quickly and easily. Your DJ determines whether your reception is a boom or bust... Remember to take your time. Choose a DJ that fits your needs. Make sure to ask lots of questions before you make your decision. Most people hire DJ's because of cost.

Exceeding Expectations

Testimonials

Not All Emcees Are The Same

A fantastic Emcee can change the dynamics of your party. A great Master of Ceremonies will organize and execute the logical progression of the event. Our Masters of Ceremonies are able to provide elegant event coordination, microphone skills and classic-traditional professionalism without the gaudiness. We offer smooth, articulate MCs, and coordination with all your vendors. Consider our two person shows. They offer the best value, and the best overall show.

INTERVIEW 3 OR MORE DJS

Make sure to interview multiple DJ's. We are confident in our abilities as DJ's we suggest that you visit with at least three companies before making a decision. We believe once you've completed your interviewing process that you'll feel comfortable to come back with us.

QUESTIONS TO ASK YOUR DJ.

Is the DJ familiar with your venue? Have you met your DJ? What about DJ overtime, and other unexpected or hidden fees? What attire will your disc jockey wear at your event? How many years experience does this DJ have? Will they play CD's you provide? Where will the DJ setup? Is there a dance floor? Will the disc jockey need to be fed at your party? Does the DJ have a request form for you to fill out? Does the DJ perform at corporate functions also? What problems has the DJ encountered at events and how did they solve them? Is the DJ insured? Will your DJ have professional equipment?

We do not display business cards or banners. We have a large selection of music. 10,000-50,000 song titles on hand at any one time. Cordless microphone. Itinerary will be completed and understood before the event. NO Cheesy dances. We have a clear and concise contract.

"Thank you DJ Crash! My VIP FIFA event in the Hollywood Hills in June 2011 was high-energy and flowed tremendously, largely due to your hard work in the DJ booth. Great tunes and most impressively, perfect flow between event moods, speeches, etc. Well Done! Can't wait to work with you again!"

-Andy Bergdahl - Senior Project Manager- TGI Systems

What a professional! DJ Crash is the perfect addition to any party. His professionalism, along with his ability to coordinate just the right music selections is fantastic. In advance of the party he worked with me to make sure every detail was taken care of, including any and all A/V equipment needs. His MC and dancers were awesome in helping to generate the fun and excitement to the party atmosphere. (Please give a special thank you to your MC, great guy!). Crash was very thoughtful about making sure all of my needs were met in terms of coordinating the timeline of events during the party.

I would recommend Crash for any event, large and small. I look forward to the next event where I can use his services again. All the best to you, Crash!

-Joanne Adirim Sydney's Bat Mitzvah April 2, 2011

We are so glad that Crash DJed our wedding! Crash was incredibly helpful and accommodating, not to mention an awesome DJ, who read the vibe of our party and kept everyone dancing all night! We can't recommend him highly enough... he stood head and shoulders above all of the other DJ and DJ companies we looked at! In short, Crash rocks, and he made our wedding unforgettable! Thank you Crash!

-Meredith and David (Wedding - October 2010)

DJ Crash delivered. He arrived early. Worked well with our live performer, Macy Gray, and our guests were extremely pleased with his DJ skills. The music was amazing. I requested a song, and before I could return to the dance floor – it was playing! I highly recommend DJ Crash.

All the best,

-Daphne Plump - Marketing Coordinator (Charity party - September 2010)

Thanks for making our Post-Wedding Party at the Montage beyond great! We were dancing fools! The next day we got so many compliments on your music and people said it was one of the best parties they've ever been to!

See you soon, (Wedding - June 26th 2010)
